SUMMARY

Full-stack engineer with hands-on experience building production web applications using Django, DRF, React, and Next.js/TypeScript, backed by a Computer Science degree (BS, University of Central Punjab, CGPA 3.60/4.00). Comfortable across the stack: designing REST APIs, integrating them with responsive React frontends, and modeling data in relational databases (PostgreSQL, MySQL). Regularly works with AI coding tools (Claude Code, Codex, Cursor, Antigravity) to move faster without sacrificing code quality. Shipped real client-facing software during a full-stack internship, and has built multiple independent Django/FastAPI + React/Next.js products end-to-end. Strong communicator, proactive, and detail-oriented about UX.

TECHNICAL SKILLS

Full-Stack: Django, Django REST Framework (DRF), React, Next.js, TypeScript, Node.js, Express

Languages: Python, JavaScript, TypeScript, Java, C, C++, SQL, HTML/CSS

Databases: PostgreSQL, MySQL, MongoDB, SQLite, Firebase

AI Development Tools: Claude Code, Codex, Cursor, Antigravity

APIs and Integration: REST API design, JWT auth, Swagger/OpenAPI, Postman, frontend-backend integration

Tools and Practices: Git/GitHub, CI/CD, Redis, Agile/Scrum, responsive UI design

WORK EXPERIENCE

Tri Tech Technology LLC | Full-Stack Developer Intern

Jul 2025 – Dec 2025

On-site | Lahore, Pakistan

- Architected and built a 4-service multi-tenant restaurant POS SaaS ecosystem (Node.js/Express REST API plus three Next.js/TypeScript frontends: Platform Admin, Restaurant Console, Cashier Terminal), integrating each frontend against a shared backend.
- Designed multi-tenant data isolation, JWT auth across platform/tenant/PIN login flows, and role-based middleware for five staff roles, with Swagger/OpenAPI-documented REST APIs.
- Deployed the system for real-world restaurant clients (CAP Cafe and Extraction) with PM2-managed production processes, following Agile practices and collaborating closely with stakeholders on UX feedback.

FULL-STACK PROJECTS

Feastly: Multi-Role Food Delivery Marketplace

2026

Personal Project

- Built a four-sided delivery marketplace (customer, restaurant owner, rider, admin) with a Next.js/TypeScript frontend and a Django REST Framework backend on MongoDB.
- Designed an actor-gated order state machine (9 states) enforcing role-based status transitions, and integrated Stripe Checkout with webhooks, JWT auth, and Leaflet-based live rider GPS tracking.

Tech: Next.js, TypeScript, Django, DRF, MongoDB, JWT, Stripe, Leaflet

Shopora: Full-Stack E-Commerce Storefront

2026

Personal Project

- Built a full-stack storefront with a Next.js/TypeScript frontend and a Django REST Framework + MongoDB backend, including JWT auth, persistent cart, checkout, and order history.
- Integrated Stripe Checkout (test mode) with webhook-confirmed order fulfillment and a seeded product catalog.

Tech: Next.js, TypeScript, Django, DRF, MongoDB, JWT, Stripe, Tailwind CSS

Throne of Glass Archive: Full-Stack Chat Application

2026

Personal Project

- Built a full-stack application with a FastAPI backend, a PostgreSQL relational database, and a Next.js/TypeScript frontend, covering schema design, REST/streaming API design, and frontend-backend integration end-to-end.

Tech: Python, FastAPI, PostgreSQL, Next.js, TypeScript

TRAK: AI-Powered News Credibility Platform

Jan 2026 – Present

Capstone Project, University of Central Punjab

- Architected a full-stack application using React Native (frontend) and Django/DRF (backend) with MongoDB, applying OOP design patterns, JWT authentication, and role-based access control throughout.

Tech: React Native, Django, DRF, MongoDB, Python, JWT

EDUCATION

Bachelor of Science in Computer Science

Sep 2022 – Jul 2026

University of Central Punjab (UCP), Lahore | CGPA: 3.60 / 4.00 | Graduated

Relevant Coursework: OOP, DSA, Database Systems, Software Engineering

CERTIFICATIONS

AI Fundamentals, Google/Coursera (Apr 25, 2026) | Fundamentals of Agents: Unit 1, HuggingFace AI Agents Course (May 2, 2026) | Python (Basic), HackerRank Certified (Aug 8, 2026)
